The Heart Of Worship

God doesn’t want empty religious routines. He wants our hearts.

‘The Heart of Worship’

Matt Redman

Four Elements of Worship:

1. Worship is a Posture of the Heart.

WORTH-SHIP means to attribute worth, honor, or reverence to someone or something.

2. Worship is a Response.

“All worship is a response to revelation.”

True worship is birthed from seeing God.

3. Worship is a Heart Connection.

4. Worship is a Sacrifice.

Worship costs us the right to live for ourselves and instead choose to live for God.
